# Discover our passion for...

## nature

All our floors are PEFC certified, this indicates that the wood comes from sustainably managed forests.

## natural knots

Some of our floors have knots that are only partially filled, others have knots that are sanded by hand. All this is done to emphasize the liveliness of the wood.

## artisan characteristics

Saw cuts are tangible evidence of pure artisanal craftsmanship. The manually applied saw cuts vary both in depth, width and interspace. Not a single plank is identical!

## craftsmanship

Some of our planks consists of multiple small boards and is composed by hand, with eye for details.

## details

Our reclaimed look shows sawcuts, height differences and gaps.

## design

We aim for the perfect balance between the type of wood, the grading, the colour, structure, finishing and plank size.

## authenticity

By using different treatment techniques such as fuming and special staining, each plank has a unique colour. Because of this, we create a lively colour variation between the planks. These effects bring the authentic character of nature into your home.

## perfect finishing

Some of our floors look as matt as untreated wood. Nevertheless, they are easy to maintain.

## wooden structures

We brush some of our floors to accentuate the natural grain of the wood and create an extra authentic feel.

# Authentic beauty meets easy living

## Maximum pleasure, easy maintenance

The highly advanced finishes in lacquer or oil make your floor highly wear, stain and scratch resistant. This Protect+ feature guarantees a long-lasting beauty and quality you can enjoy for many years to come.

# Authentic beauty that lasts a lifetime

As diverse as Quick-Step Parquet floors may be, they all have one thing in common. They withstand time and only grow in natural beauty thanks to the Protect+ feature. On top of that, they are very easy to maintain.

Sliding chairs, high heels, dirty shoes,... your floor gets put to the test on a daily basis. That's why Quick-Step's Parquet floors are coated with high-quality finishes in lacquer or oil. They can be slightly glossy or retain the typical matt look of untreated wood, but with significantly higher wear, stain and scratch resistance in either case.

Moreover thanks to the Uniclic® clicks system with pretension, liquids will not penetrate your floor. Have you spilled something? Just wipe it up with a moist cloth.

What's more, a Quick-Step Parquet floor is very easy to keep looking just like new. With the right products, it will stay beautiful and last even longer. Discover our entire range on page 14 - 15.

We will help you to find your perfect floor!

Our extra matt lacquer finish combines the look of an untreated floor with the advantages of a lacquered floor. It is easy to clean and its maximum protection against scratches and stains keeps your floor in shape!
